

L3 Range

Super lightweight 7" & 10" displays.
Durable & light for fast, effective integration into lightweight structures & materials. Frames (front and back) can be bonded directly onto substrates. Optional motion detector, sleep or mute modes available when movement is detected

Specifications

L3 Range

SPECIFICATIONS – STANDARD DISPLAYS

Frame type	Super-lightweight high density foam & acrylic construction. Can be used stand alone or integrated and with a variety of our specialist frames and mounts	Power & cable	Supplied as standard with 0.7m 5V USB power cable. USB extension leads available in 1.5m & 3m lengths. USB plugs appropriate for deployment territory if using mains power.	
Internal memory	200mb internal	Content loading	Content is loaded and updated via USB PC connection OR micro SD card. Content can be pre-loaded prior to delivery (charge applies for displays supplied from stock).	
Volume	+/- volume control buttons on rear			
Mounting & fixing	Smooth, flush** plastic cover front and back allows both the front and the rear of the displays to be bonded onto substrates and surfaces. Double sided tape or velcro is recommended. RAPID75 adhesive mounting plate available for fitting to standard 75mm VESA or for secure wall hanging. A simple shelf can also be created within a POS housing. Our exclusive freestanding acrylic holders can also be used with branded card inserts (see previous page) **not currently 5" model with PIR			
Interactive options	Available with PIR movement sensor/speaker option. PIR either mutes sound or puts display on low-power sleep when no movement is detected. This is a user select able feature on latest 7" & 10" models.		Warranty	18 months
Powering from other devices	For additional flexibility, displays can also be powered from a till or computer using a USB extension cable.		Certifications	As appropriate for country of deployment
